

BIRDS OF THE RED SEA

Georgina Cole

YOUR PHOTOGRAPHIC GUIDE TO BIRDS OF THE RED SEA, EGYPT

AUTHOR

The photographs were taken during the past year by Georgina Cole who has been living in El Gouna since 2004. Her passion for bird photography began after discovering kestrels that were nesting every year directly opposite her balcony.

As a founder member of Rotary Club of Red Sea—El Gouna, she has been working as a volunteer on projects serving all seven of Rotary International's Areas of Focus since 2014.
